

Modified Sinewave Power Inverter/ UPS System

1200W/2000VA 24V DC to 220V AC

Product Code: FBIT2000
Barcode: 6002844039714

- Ideal for home, office and indoor use.
- Overload protected.
- Built in ATS (Automatic Transfer Switch) with adjustable mains failure sensitivity.
- Built in intelligent battery charger.
- Battery saving and low battery disconnect function.
- Fossil fuel and pollution free.
- Automatically shuts down to prevent damage to your equipment and inverter if maximum output is exceeded.
- Notifies you if there is a flat battery or a risk of overloading.
- Easy to move around and setup when required.
- Movable trolley system.
- Warning buzzer.

Modified Sinewave Power Inverter/ UPS System

The Ellies Power inverter/ UPS is an electronic product designed and built to take low DC voltage power from batteries and convert it to standard AC power.

TECHNICAL INFORMATION

Specifications

Input power:	24V DC
Output power:	220V AC
Temperature:	0-40°C
Transfer time:	15-20ms, 40ms max

PACKAGE CONTENTS

- 1 x Mains power cord
- 1 x Steel movable trolley
- 1 x 1200W/ 2000VA Power inverter/ UPS
- 2 x 12V Deep cycle, maintenance free batteries
- 1 x User manual

PACKAGE DIMENSIONS

Height (mm)	Depth (mm)	Width (mm)	Weight (kg)
587	480	445	68.5
